For Me, the Cut For A Cure Event is my way to fight against breast cancer and to reach out to families that have been affected by any type of cancer.  
Joyce-Lyn Altieri

## Why

After the loss of my sister at age 42 to inflammatory breast cancer, it has been our mission to reach out to people and get the word out about early detection for breast cancer. We want people to be aware of inflammatory breast cancer, which appears with a rash, not a lump.

## Help Lea

Flair For Hair is all about helping family going through a hard time. When we heard about Lea and her families we knew we had to reach out and help. As a fellow member of the community we are coming together to raise funds to assist the brave and strong Lea with her fight.

### Here is her story:

Recently members of our community and the founders and owners of Tuff Girl Fitness/FMA Performance, Christa and Mike Doran, have been faced with the unimaginable. Their 6 year old daughter Lea has been diagnosed with a rare high grade glioma called DIPG. This form of brain tumor is highly aggressive and difficult to treat, currently there is no known cure.
